The right compressor for your business

Versatile

Open and enclosed format packages and air end options
- 50 / 60 Hz
- 6 - 10 bar
- 0.1 - 7.5 m³/min
- 4 - 264 cfm

Quiet as standard
With noise levels as low as 62 dB(A) a Hydrovane can be located at the point of use.

Fixed and Regulated speed models
Matching air demand with your business needs.

Reliable by Design

Direct drive
No gears. No belts. Up to 100,000+ operating hours due to its simple integral design.

High quality air
Clean, dry and pulse free straight from the outlet means less downstream equipment required.

Slow speed
1450 - 1760 rpm speed operation results in low noise, low stresses and long life.

Common replacement parts
Quick, cost-effective servicing, with minimal downtime.
Guaranteed

Market leading warranty
Up to 10 years or 48,000 operating hours is now available for total peace of mind on all standard Hydrovane models.

Distributor support
Hydrovane machines are supplied and maintained by a wide network of Authorised Distributors and highly skilled, factory-trained service engineers.

Powerful and Cost Effective

Hydrovane Pro Controller
For total electronic control, greater connectivity and flexibility.

Regulated speed
Proven, simple and long-lasting technology solutions delivering up to 50% energy savings.

Reduced Energy Venting System (REVS)
Reducing off-load power to as low as 20%.

Air Intake modulation control
No wasteful overproduction of air.
A range of compressors

From stand-alone...

Open – Fixed Speed

Small and compact, Hydrovane HV01 - HV04 models are ideally suited for light industrial and workshop applications where the compressed air outlet needs to be situated close to the point of use.

- 50 / 60 Hz
- 1.1 - 4 kW
- 10 bar
- 0.1 - 0.6 m³/min
- 4 - 20 cfm

Enclosed – Fixed Speed and Regulated Speed (RS)

Taking components that have been developed specifically with energy-saving in mind, Hydrovane’s designers and engineers have developed a rotary vane compressor for the twenty first century, whilst retaining the features which have helped build Hydrovane’s reputation for quality and reliability around the world.

- 50 / 60 Hz
- 4 - 7.5 kW
- 7 - 10 bar
- 0.6 - 1.3 m³/min
- 20 - 46 cfm

HV01 - HV04 Models

Tripod or Receiver mounted

HR04 – HR07RS Models

Fully Enclosed
Whilst all Hydrovane rotary vane compressors are designed and built with the highest levels of efficiency in mind, if you’re looking for the ultimate in energy-saving technology, we offer our 7.5 to 45 kW machines with a Regulated Speed (RS) option.

RS machines optimise energy efficiency when operated below full load capacity. This can deliver benefits of up to 50% energy savings compared to the equivalent standard fixed speed model.

**HV11 – HV45RS Models**

- 50 / 60 Hz
- 11 - 45 kW
- 6 - 10 bar
- 1.3 - 7.5 m³/min
- 46 - 264 cfm
...to the complete compressed air solution

Complete packages save space. Save time.

Hydrovane compressors are available as fully integrated packages. Hypacs are available with membrane or refrigerant dryers and integrated receivers and come as a factory built package or can be supplied as a kit for local assembly.

**Integrated packages can be more cost-effective than building a system using separate components.**

Hydrovane’s knowledgeable Authorised Distributors can advise you on the best package for your business to make the most of factory space and give you more for your budget.

**Hypac Open - Fixed Speed**

**HV01 – HV04 Models**

- Integrated Membrane Dryer
- 50 / 60 Hz
- 4 - 7.5 kW
- 10 bar
- 0.1 - 0.6 m³/min
- 4 - 20 cfm

**Hypac Enclosed - Fixed Speed and Regulated Speed (RS)**

**HR04 – HV22RS Models**

- Integrated Refrigerant Dryer model
- Integrated Receiver model
- 50 Hz
- 4 - 22 kW
- 7 - 10 bar
- 0.6 - 3.6 m³/min
- 20 - 127 cfm
Hydrovane Air Solution packages are the ultimate in convenience.

Fully packaged with integrated receivers, refrigerant dryers and filtration, Hydrovane Air Solution models offer you the best solution for your compressed air requirements.

Air Solution Enclosed – Fixed Speed and Regulated Speed (RS)

HR04 – HV22RS Models

- Complete Package
- Integrated Refrigerant Dryer
- Integrated Receiver
- Filter Pack
- 50 Hz
- 4 - 22 kW
- 6 - 10 bar
- 0.6 - 3.6 m³/min
- 20 - 127 cfm
At the heart of your compressor’s performance

Hydrovane Pro puts you in complete control

HR04 - HV45RS Models

Hydrovane Pro Controller Features:

• Real Time Clock
• Timer Control
• Second Pressure Setting
• Status Display
• Group Fault Outputs
• Error Logs
• Digital Inputs
• MODBUS RTU
• Sequencer Capability
• Flash Programmable
with simple-to-use, intelligent electronics

All Hydrovane compressors in both Fixed and Regulated Speed in the 4 to 45 kW model range are fitted as standard with the Hydrovane Pro Electronic Controller. This control system ensures reliable operation and protects your investment by continuously monitoring the operational parameters of the compressor.

The Hydrovane Pro also has the capability to have programmable inputs and outputs for increased control of ancillary equipment.

It is now possible to simply connect a Hydrovane Pro controlled compressor to the range of Sequencer Technologies within the Gardner Denver group allowing flexibility of use and maximising energy reduction.

HV01, HV02 and HV04 Models
Standard Starters

A high quality srarter with a robust control circuit, including over-temperature protection.
Reduce your energy costs

How does a Hydrovane compressor save energy?

Regulated Speed (RS)

- RS control ensures optimum load conditions throughout the compressor’s speed range
  Delivering maximum efficiency

Air Intake Modulation

- Air intake modulation at minimum speed deliveries further energy savings
  To match the reducing air demand

Reduced Energy Venting System (REVS)

- In-built Reduced Energy Venting System (REVS)
  Improved part-load and off-load performance

SMART SERVO energy reduction system

- Optimised motor, drive and air end
  Proven air cooled inverter drive
  High efficiency across a broad flow range
  Substantial energy savings delivered.

Please contact your local authorised Hydrovane distributor for an Air System Energy Review and Data Logging.

Reduce the cost of ownership and minimise your energy consumption.

- Energy Cost: 82%
- Purchase Price: 10%
- Maintenance and Service: 8%

SAVINGS: 62%

- Energy Cost: 21%
- Purchase Price: 12%
- Maintenance and Service: 5%
Customise your Hydrovane
to suit your applications

With Hydrovane's versatile rotary vane compressor technology, we can deliver the widest range of bespoke OEM solutions.

The possibilities are endless when it comes to supplying air for a specific application inside and outside the standard industrial arena. Hydrovane has over 50 years experience in supplying proven solutions to OEMs, either as air ends or complete packages, designed and purpose built. In addition, there are occasions when a customer may require a special build, and this is where Hydrovane can deliver custom solutions.

Air Cooled Compressor Arrangement

For Part Numbers refer to Drawing AV04 ATSN xx

Performance @ 1450 rpm:
- 500 lpm @ 12 bar
- 350 l/min @ 12 bar
Max Working Pressure: 12 bar
Ambient: 40°C max
Mass: 75 kg (approximately)

* Compressor stator and motor type will be selected to suit specific flow/pressure requirements and ambient conditions. Motor dimensions/weight may vary.

** Inlet Air Cleaner can be supplied as a loose item or mounted on a bracket on the end of the frame. Air inlet adapter can be rotated through 30° increments to suit the application.
Hydrovane Advance™10

Warranty that delivers complete peace of mind

The Hydrovane Advance 10 extended warranty programme is a unique market leading compressor care package designed to deliver comprehensive warranty cover for up to 10 years or 48,000 operating hours on all Hydrovane compressor airends.

Key benefits

- Free
- Guaranteed Quality
- Accurate Maintenance Budgeting
- Maximise Compressor Life
- Simple administration
- Hydrovane will give you an appropriate service schedule
- Trained and qualified engineers will take care of your machines.

Hydrovane standard warranty:

All Hydrovane compressors are guaranteed for 12 months from the date of installation providing the installation is approved by an authorised Hydrovane distributor and the correct service procedures and genuine service kits, parts and lubricants are used.

NOTE: Terms and conditions apply to all Advance 10 Warranty offers. Please consult your local Authorised Hydrovane Distributor for details.
Your local Hydrovane distributor

Sales and Aftermarket Support. Back-up you can trust

Hydrovane service philosophy is one of regular maintenance being the key to long, reliable, trouble-free compressor life.

Hydrovane offers extensive aftermarket support through an extensive network of Authorised Distributors who will provide:

**FREE energy surveys**
To test your compressed air system for possible leaks and other costly inefficiencies.

**Service Kits – Genuine OEM spare parts**
The service kit concept has been developed to make our compressor servicing quick, easy and cost effective. Using the service kits as part of the recommended service schedule will prevent costly breakdowns, ensuring a continuous supply of high quality compressed air.

**Lubricants – Approved for vane usage**
Even the most reliable compressors in the world require routine lubricant changes to maintain peak performance. Over many years, Hydrovane has developed a range of high quality lubricants that have been specifically formulated to guarantee optimum compressor performance.

**Factory-trained service engineers**
Hydrovane is committed to providing every Hydrovane compressor owner with fully trained Service Engineers to care for their investment throughout our Global Distribution Network.

Look after your Hydrovane and it will last a lifetime.

We’re the professionals

Hydrovane’s distributors will visit your site, free of charge, to assess your individual compressed air requirements in order to deliver the solution that best meets your requirements.
